Delton-Kellogg Implements Software from Plato and JST

Job Skill Technology, Inc. (JST, Inc.) is proud to announce that Delton-Kellogg Schools has selected JST, Inc. and PLATO Learning to provide on-line curriculum for students. The district evaluated several products and selected PLATO because of the quality of content, the wide range (K-12) of content and the local support provided by JST, Inc. By purchasing licenses and hosting them locally, the district has made a long-term commitment to computer-aided instruction. Studies have shown that many students benefit from differentiated instruction, including computer-based programs like PLATO. At Delton-Kellogg, the lessons will be delivered via the Internet, providing flexibility and accessibility so that more students have the opportunity for remediation, enrichment and credit recovery.

Job Skill Technology, Inc. is a leading solution provider of computer-based learning and educational tools for pre-kindergarten through adult learners. The company specializes in software, assessment and accountability solutions, e-learning, and hardware with special emphasis on technical support and training.

The company serves K-12 schools, alternative and adult education, state and local government, colleges and universities, correctional institutions, job training programs, corporations, and private industry.

Job Skill Technology, Inc. is headquartered at 1000 N. Opdyke Road, Suite D-2, Auburn Hills, Michigan 48326, 800-783-5780.
